

AI Ray Tracer Render Inspection Deliverables

1. Glass, Chrome, and Reflections

Required Deliverables: 11

1. Large transparent glass sphere centered in the scene.
 2. Visible refraction through the glass sphere.
 3. Dark reflective chrome cube on the left.
 4. Polished gold closed cylinder on the right.
 5. Two smaller colored spheres behind the main objects.
 6. Black-and-white checkered floor.
 7. Visible reflections on the chrome cube and gold cylinder.
 8. Deep shadows from the scene objects.
 9. Crisp highlights on the glass, chrome, and gold materials.
 10. Low camera angle with strong perspective.
 11. Dark, clean, cinematic background.
-

2. Neon Planetary System

Required Deliverables: 10

1. Large glowing orange sun positioned slightly off center.
 2. Five planets with different sizes and colors.
 3. Blue transparent or refractive glass planet.
 4. Striped gas giant.
 5. Small reflective red moon.
 6. Planets arranged at different depths.
 7. Dark reflective plane below the planetary system.
 8. Visible point-light illumination near the sun.
 9. Strong but controlled bloom around the sun.
 10. Wide three-quarter camera angle with a nearly black background.
-

3. Pattern Material Gallery

Required Deliverables: 11

1. Five clearly visible spheres.
 2. Five individual matte pedestals.
 3. Black-and-white striped sphere.
 4. Blue-to-gold gradient sphere.
 5. Red-and-cream ring-patterned sphere.
 6. Green-and-black checkered sphere.
 7. Perturbed purple-and-cyan patterned sphere.
 8. Visible differences in pattern scale.
 9. Visible differences in pattern rotation.
 10. Neutral plane with a charcoal background.
 11. Centered camera with balanced lighting and readable shadows.
-

4. Geometric Sci-Fi Temple

Required Deliverables: 10

1. Symmetrical science-fiction temple structure.
 2. Two rows of tall closed-cylinder columns.
 3. Stacked and rotated cubes forming the central doorway.
 4. Large triangular emblem above the doorway.
 5. Dark stone materials across the main structure.
 6. Visible gold accents.
 7. Cyan emissive emblem with controlled bloom.
 8. Slightly reflective dark plane.
 9. Warm point light near the entrance.
 10. Low, centered camera angle looking slightly upward.
-

5. Abstract Recursive Sculpture

Required Deliverables: 12

1. Three nested groups.
2. Three reflective spheres, one per group.
3. Six rotated cubes, two per group.
4. Nine thin triangular fins, three per group.
5. Different scale applied to each group.
6. Different rotation applied to each group.
7. Upward twisting or spiral composition.

- 8. Silver material.
 - 9. Deep blue material.
 - 10. Copper material.
 - 11. Sculpture visibly floating above a matte plane with a soft shadow.
 - 12. Dark navy background with subtle blue emission and restrained bloom.
-

6. Surreal Checkerboard Landscape

Required Deliverables: 11

- 1. Infinite red-and-black checkered plane.
 - 2. Three enormous glossy spheres.
 - 3. Spheres positioned to recede toward the horizon.
 - 4. Transparent glass cube floating above the foreground.
 - 5. Visible refraction through the glass cube.
 - 6. Multiple thin closed cylinders.
 - 7. Cylinders leaning at different angles.
 - 8. Small glowing cyan focal sphere.
 - 9. Extremely low camera angle close to the plane.
 - 10. Long shadows and reflective accents.
 - 11. Gentle bloom around the cyan sphere.
-
